

Practical 2-in-1 solution for sieving SLS powders with the convenient CAKEBREAKER function

- High capacity
- Functional and safe with intuitive controls
- Compact and easy to handle
- Clean and automatic process for cleaning and sieving
- Compatibility with CADmix II

Sifting

Saves work and time

quickly sifted powder thanks to superior capacity

Minimizes handling

eliminates the need for repeated manipulation, the entire process runs automatically

Allows selecting the fineness of sifting

thanks to interchangeable screens, the fineness of sifting can be adjusted as needed

Works safely and cleanly

it is a completely safe process that keeps the workspace clean

CAKEBREAKER - cleaning prints

Saves work and time

significantly shortens the process of print finishing

Compatible with CADMIAtools

enables a seamless transition between printing and post-processing within the CADMIAtools ecosystem

Provides versatility of use

It can be used for purposes other than SLS 3D printing

Works safely and cleanly

it is a completely safe process that keeps the workspace clean

PACKAGE DIMENSIONS

Height (mm):	950
